## Town of St. Joe Water Improvements Project

---

---

Print Name & Address:

Date: \_\_\_\_\_

---

---

---

The Town of St. Joe is seeking public comments for a Community Development Block Grant (CDBG) Drinking Water Project to replace obsolete and undersized asbestos cement (AC) water mains throughout Town, add water main looping on the northwest side of Town, and to upgrade fire hydrants. The goal of this effort is to improve water quality and fire flow pressure and assure a reliable water distribution system for years to come.
