## **Construction Update:** **SR 1 St Joe, IN** 05/02/2023

Residents of St Joe,

Brooks Construction, Fleming Excavating, and INDOT appreciate you working with us through this project. These projects are never easy and never convenient for the residents who live along the project. We do our best to make as little impact on your daily lives as possible, although we know no matter what we do it impacts you greatly.

We put a lot of effort into planning and making sure the project flows smoothly from start to finish. No matter how much planning we put into a project there always seems to be a hiccup somewhere along the line and this project is no different. We have encountered a hiccup that we are working diligently to overcome, however while we are working to overcome this bump in the road we have come to a point where we need to halt work for the moment. Please know that this was done in the best interests of the residents of St Joe, to protect you.

Thank you for your patience while we work through this,  
Nate Till  
Project Manager  
Brooks Construction Co Inc
